William Stegeman

Laboratory Chemist

Shakopee, Minnesota | August 2015

Midwest Industrial Coatings, Inc. would like to welcome William Stegeman as the newest member of our team. William joins us as a laboratory chemist. William is a wealth of knowledge, and comes to us with over two decades of experience.

Since graduating from the University of Colorado in 1979 with a degree in Chemistry, William has been gaining hands-on experience and excelling in various roles throughout his career - first working for a manufacturer of construction materials (eg: adhesives, coatings and sealants), and more recently testing coatings, composites and other non-metallic materials. All the while he has demonstrated a commitment to his work, and takes pride in pursuing continued improvement - making good things better and always looking for ways to perfect his work product.

His work ethic has not gone unnoticed. William is the recipient of a number of awards for his work, from the ASTM Service Award from Committee S02 Committee on Technical Committee Operations (COTCO) to the ASTM

Award of Merit (ASTM Fellow) and the ASTM C24 (Sealants) Hall of Fame Award.

Outside of work, William is a dedicated family man and active in his church. Born in Kansas but raised in Colorado, William and his family moved to Minnesota to continue his career. In his time here he has developed a love of lakes and fishing. Perhaps as much as anything else, William loves to research his family's history. He takes his genealogy seriously, something he learned from his grandmother and, fittingly, has passed along to his own children.

We are delighted to have such a dedicated and experienced person joining our MICI "family" and we look forward to what William brings to the table. Thanks for choosing MICI, William. Welcome!

Midwest Industrial Coatings, Inc. is a privately held company established in 1985 and based in Shakopee Minnesota. MICI is a Specialty Coatings Solutions Provider. In addition to supplying coatings, MICI provides Tier I services to its customers and suppliers throughout North America, and the Pacific Rim. MICI manages customer supply chains, compliance efforts, application processes, color development and R&D functions in industries such as Agriculture, Automobile Sub Supply, Construction, Marine, Recreational Vehicle, General Industrial and Heavy Machinery.
