## **Beth Macgowan**

Accounting Assistant

*Shakopee, Minnesota | August 2015*

Midwest Industrial Coatings Inc. would like to welcome Beth Macgowan as our new Accounting Assistant. We were lucky to grab Beth from Cargill as they were moving staff abroad. She comes to us with a 20-year track record of getting the job done at a variety of different companies, including Cargill, National Premium and Gilbertson Advertising.

Beth has earned degrees from Winona State University and Brown Institute and has a background in Broadcasting and Advertising Design. On the job, Beth finds it is important to do whatever she can to help the team. She finds it important to keep clients happy and establish and maintain trust with her coworkers. It is her view that no task is beneath her if it helps forward those two objectives.

Beth is originally from Bloomington, Minnesota, but now lives in Shakopee with her family, which includes her son and daughter as well as her four stepsons and one grandchild! She also loves the family pet, a Tibetan Spaniel named Bella. Just this September, she and her husband celebrated their five year anniversary.

Outside of work, Beth keeps busy with Vikings games, searching for treasure at estate sales, as well as volunteering at Happy Tails and One of a Kind Animal Rescue, St. Jude's and Holy Emmanuel Lutheran Church/Open Arms Early Childhood Center.

Beth looks forward to getting to know the folks at MICI, and believes in taking the time to truly get to know someone. We hope everyone is just as welcoming to Beth, and takes the time to say "hi" when you get a chance. Beth, welcome to MICI! Thanks for joining the team!

Midwest Industrial Coatings, Inc. is a privately held company established in 1985 and based in Shakopee Minnesota. MICI is a Specialty Coatings Solutions Provider. In addition to supplying coatings, MICI provides Tier I services to its customers and suppliers throughout North America, and the Pacific Rim. MICI manages customer supply chains, compliance efforts, application processes, color development and R&D functions in industries such as Agriculture, Automobile Sub Supply, Construction, Marine, Recreational Vehicle, General Industrial and Heavy Machinery.
